Professional Summary

Recent Computer Engineering graduate, currently pursuing an MSc in Electrical Engineering. Strong foundation in software and hardware development and testing, with solid analytical and programming skills. Seeking an entry level engineering role to contribute and grow in a high impact team.

Education

Master of Science (M.Sc.) : Electrical Engineering, 2024 – present

Technion - Israel Institution of Technology

MSc student in Electrical Engineering.

Bachelor of Science (B.Sc.) : Computer Engineering, 2019-2023

Ruppin Academic Center - Israel, Hefer Valley

GPA: 90

Relevant Coursework

- C, C++, ML/AI, Algorithms and Data Structures

Diploma : Network and Telecommunication , 2014-2016

TOM Technology College - Israel, Herev Leet

GPA: 93

Skills

- C, C++, Python, Java, JavaScript, C#, MATLAB,VHDL
- Algorithms and Data Structures
- Leadership, Time Management, Adaptability
- Machine Learning and Artificial Intelligence
- Communication, Teamwork, Problem-solving

Experience

Support Engineer

March 2019 to July 2019

HP - Netanya

- General IT infrastructure support and technician.
- Provided technical support to end users and customers, troubleshooting hardware and software issues.

Monitoring and Control Center Supervisor

August 2017 to February 2019

IDF - Gaza Division

- Shift supervisor for monitoring and control center for servers and computers in Gaza region.
- Responsible for communications and C4ISR systems for operational units during times of conflict.
- Administering 10 computer networks and 16 Organizational Units.
- Held weekly meetings with personnel assigned to work in the control center so that objectives were clearly understood by all parties involved.
- Demonstrated strong organizational abilities to ensure all tasks were completed on time and within budget.

Tactical C4I Support

September 2016 to July 2017

IDF - Gaza Division

- Tactical video capabilities – installation and maintenance.
- Operational computer and communication platforms.

Certifications

- CCNA
- AWS Cloud Fundamentals

Awards

- Winning a Machine Learning Hackathon
